

## Amis Med-Aesthetics

	Price	Duration
<b>Med-Aesthetic Consultation</b>	€ 35	15 mins

A consultation is required prior to every treatment. Our medical aesthetician will advise on the ideal rejuvenating treatment for you. Most treatments can be performed on the day or booked for a future date if necessary. Consultation fee will be deducted from the price of any booked med-aesthetic treatment.

### Botulinum toxin (Botox®/Bocouture®)

Botulinum toxin is the ideal lunch-time treatment. It works by relaxing the muscles which are responsible for causing certain expression lines, thereby improving their appearance and preventing worsening over time. Botulinum toxin is mostly injected in the upper part of the face with visible results seen 3-7 days post treatment. One might experience mild redness, swelling and tenderness on the area for a few hours but generally this is a procedure with very little down-time. All Med-Aesthetics treatments are performed by our certified doctor and the right treatment for you will be recommended during the consultation.

Botox®/Bocouture® 1 Area	€ 150	20 mins
Botox®/Bocouture® 2 Areas	€ 200	20 mins
Botox®/Bocouture® 3 Areas	€ 250	20 mins

### Hyperhidrosis

Hyperhidrosis is a condition characterized by excessive sweating so much so that it disrupts normal activities. For some, symptoms are so severe that it becomes embarrassing, causing discomfort and anxiety. Botulinum toxin injections can be used to treat this condition. Essentially, the toxin blocks the nerves that trigger the sweat glands to produce excessive sweat. Areas most commonly treated include under the arms and palms. For effective results the number of treatments needed depends on the severity of the condition.

€ 500 30 mins

### RHA Dermal Fillers

As we age our skin loses collagen and hyaluronic acid as well as its underlying supportive structures, ie. fat and bone. With this loss of volume, the youthful facial contour is lost and common lines around the nose and mouth start to appear. The RHA Dermal filler injections were created by TEOXANE Laboratories to meet specific requirements of mobile facial areas. This patented technology preserves natural characteristics, mimicking the content of hyaluronic acid which is a natural skin component. The use of fillers helps to diminish facial lines by restoring volume and fullness to the face. During the consultation the doctor will be able to recommend the best choice for you.

**RHA 1:** Used for the treatment of fine lines on the face and neck, including upper lip 'barcode' lines, frown 'glabellar' and eyes 'crow's feet'.

**RHA 2:** Used for the soft restoration of lip volume and contour.

**RHA 3:** Used for the treatment of deeper lines, particularly nasolabial folds, cheek and lip augmentation.

**RHA 4:** Used for extensive volume restoration in dynamic areas such as cheeks and nasolabial folds.

**Redensity II:** Designed specifically for hollow under-eye areas and tear trough correction.

**Ultra Deep:** Ideal to build and restore volume primarily in the cheeks, chin and jawline.

	1ml	2ml
RHA 1	€ 290	€ 485
RHA 2	€ 315	€ 495
RHA 3	€ 315	€ 495
RHA 4	€ 325	€ 550
Redensity II	€ 315	€ 495
Ultra Deep	€ 325	€ 550

### Mesotherapy / Skin Boosters

This treatment is designed to improve the hydration, texture and luminosity of the skin. It's a great option for that extra glow, helping reduce fine lines, loss of elasticity and dehydration. It is also ideal for treating the hands, neck and décolleté. The treatment involves injecting a cocktail of nutrients such as hyaluronic acid, vitamins, minerals and FDA approved pharmaceuticals into the uppermost layer of the skin. It is generally given as a course of treatments with results lasting between 3 - 5 months. Top-up treatments will be required for maintenance. Our doctor will advise on the recommended course of treatments during the consultation.

Mesotherapy / Skin Booster 1 ml	€ 150	30 mins
Mesotherapy / Skin Booster 2 ml	€ 280	30 mins
Mesotherapy / Skin Booster 3 ml	€ 350	30 mins

### Microneedling

The Mesopen Pro is used for microneedling at Amis. This is a safe and minimally invasive procedure designed to stimulate the production of new collagen and elastin fibers in your skin making the dermal product delivery faster and more effective. The tiny medical-grade needles create microchannels that enhance the growth of new collagen and elastin. The result of this process is that the cosmetic preparations are delivered into the deeper layers of the skin for faster and more effective visible results.

The effects of this treatment are of increased cell regeneration, improved skin texture, tone and tightness, diminishing in the appearance of fine lines and wrinkles, reduction in the appearance of acne and surgical scars, reduction of the appearance of pigmentation, rosacea and stretch marks, reduction in pore size. Skin needling is a safe and effective treatment for all parts of the body and can be performed on all skin types and skin tones. Our doctor will advise on the recommended course of treatments during the consultation.

Microneedling Face	€ 150	25 mins
Microneedling Face & Neck	€ 200	30 mins

All Medical Aesthetic treatments at Amis are performed by a medical doctor. During the consultation the doctor will discuss benefits, alternatives and risks involved with each treatment as well as answer any of your questions and concerns and thereby recommend the best treatment for you.
