Russian eyelash extensions	€ 65	120 mins
Volume eyelash extensions	€ 65	120 mins
Lashes refill (within 3 weeks from application or from last refill)	€ 35	60 mins
Eyelash extensions removal	€ 20	40 mins

Eyelash Extensions Aftercare.

Eyelash extensions are a beautiful enhancement to your eyes. These are a delicate addition therefore it is important to follow the below recommendations to ensure that you get the most out of your new lashes.

1. **Avoid getting your new lashes wet for up to 48 hours after application.** The water will react with the glue and cause a flash cure resulting in the lash bond to become brittle and break. After the 48-hour period don't position your head in the full strength of the water flow, instead let the water run down your face.
2. **Do not rub or touch your eyes.**
3. **Clean your eyelashes every 3 days ONLY with an eyelash foam cleanser.** This is an important step to ensure the health of your eyes. Clean by using a soft bristle brush and specialist eyelash extension cleaning foam. This ritual removes traces of natural oils, dust and make-up, preventing build-ups that cause pressure on your lashes and breaking down the bond. Cleaning helps avoid premature lash shedding.
4. **Brush through your eyelash tips every morning** with the wand that the eyelash technician passes on to you.
5. **Avoid sleeping on your face.**
6. **Do not use eyeliner and mascara on your eyelash extensions.** The product gets caught between lashes and causes build up, making it much harder to clean without causing damage to the bond. If you must use mascara, do it occasionally and only use a water based mascara.
7. **Ensure that you refill in time.** It is recommended to refill every 2 to 3 weeks. Bookings for refills after 3 weeks will be charged as a new set.
