Healthy Hair & Scalp Detox and Nourish Treatment

Used monthly this 30-minute treatment purifies, replenishes and nourishes scalp and hair to slow down hair loss, and avoid dandruff and an itchy scalp. A scalp detox controls excess sebum accumulation in the scalp due to sweating or styling products and leaves your scalp and hair clean and nourished. Using Innersense products to deliver hydration, health, moisture, shine and protection to your hair and scalp through luxurious formulations that are crafted from Certified Organic plant ingredients. This is a professional treatment that includes a peppermint scrub to stimulate blood flow, a head massage infused with citrus and sage extracts, and a hydration mask for rebalancing your scalp and hair health.
