

Eyebrow Service List

Brow Bar	Price	Duration
Eyebrow Trimming & Shaping with Tweezers	€ 10	10 mins
Eyebrow Tint	€ 10	10 mins
An eyebrow tint lasts for a maximum of one week depending on skin type.		
Henna Eyebrow Tint	€ 18	20 mins
A henna eyebrow tint lasts much longer than a regular eyebrow tint. The henna color can stay on the surface of the skin for between 3 to 5 weeks depending on the skin type.		
Eyebrow Lamination with Tint & Shaping	€ 45	45 mins
This involves straightening and lifting your natural brow hairs to your desired shape, therefore covering any gaps or stray hairs, using a solution to keep the hairs in place. A brow tint finishes the treatment for fuller-looking brows that stay in place, lasting around 4 weeks.		
Eyebrow Waxing	€ 8	10 mins
Eyebrow Threading	€ 8	10 mins
Eyebrow Microblading with Microshading	€ 250	120 mins
Microblading is a semi-permanent treatment for naturally fully looking eyebrows with microshading for an additional and softer 3D dimension. A totally bespoke approach creating the best shape for each face. Unlike tattooing, microblading is not in the deep layer of skin but more on the surface thereby delivering a semi-permanent result that could last up to 18 months.		
Eyebrow Microblading Touch Up	€ 100	60 mins
This touch up is to be done within a maximum of 6 weeks from the initial treatment. Once brows are completely healed a touch up would be the next step. After the healing period you might notice uneven color and some patches. This is normal and addressed during a touch up, where the brows' sparse area and areas where pigment might have faded are filled in. This touch up service can only be delivered to our microblading clients.		
Eyebrow Microblading Consultation	Free	15 mins
